

# Multi-Stage Drinking Water Systems

## Top-Line Economical Solution

## Overview

The EcoLine™ reverse osmosis water purification system incorporates multi-stage filtration technologies into one system. This Point of Use (POU) system is made of quality components, and capable of reducing a high percentage of contaminants from the water supply. Ideal for homes and offices, the EcoLine system produces purified water for drinking, cooking, ice-making, food preparation, pets, and plants.

## Features

- 50 GPD High Rejection Thin Film Composite RO Membrane Element
- Quick Connect fittings for Ease of Installation and Service
- Every system is Quality Wet-Tested for Leaks and Auto Shut-Off Functions
- Made with NSF Listed and/or FDA Approved Wetted Parts.
- Complete system Ready to Install (faucet sold separately)
- Proudly assembled in Texas, USA

## Options

- Variety of Faucet Designs, Colors, and Finishes
- Upgrade to 75 GPD, 100 GPD, or 150 GPD membrane
- Chloramine or High VOC Pre-Filters
- Upgrade to 3/8" Tank to Faucet
- Deionization (DI) Post Filter
- Ultraviolet (UV) Post Filter
- Alkaline or Mineral Post Filter
- Booster Pump or Permeate Pump Assembly
- Ice-Maker Kit
- Pressure Gauge(s) and TDS Monitors
- Larger RO Tank sizes
- Customization and Private Labeling
